Required Attendees: Minter, Douglas; Shea, Valois; Chin, Lucita

This seems like a good time to review the ESA work in preparation for the 4 November briefing. If acceptable, I will schedule a 7th floor room.

Thanks Jim: if you could take the lead in setting up a 30 minute briefing for us on the use of these tools in documenting ESA compliance for the DB permits, I would appreciate it. If you will be far enough along in your analysis to offer some preliminary findings regarding species-specific effects, that would be even better.

The most current FWS BA consultations template is archived here. Future work specific to the DB permits should be shared from here too.
